17 Defendant Tyrone Pollard, by and through his counsel, Assistant Federal Public Defender  
18 Colleen Martin, hereby requests an order directing the Glenn Dyer Facility to permit him to  
19 possess a tape-player that has no radio and no metal earphones so that he can listen to and review  
20 a tape produced to the defense in discovery. This application is based on the attached  
21 declaration of counsel and is made on the grounds that Mr. Pollard needs a device that will  
22 enable him to listen to recordings that have been produced in discovery. The ability to listen to  
23 these recordings is necessary to enable Mr. Pollard to participate in the preparation of his  
24 defense, including with respect to sentencing.
